

WLMG REPORT OCTOBER 2026

The following responses to questions raised with BDW by have now been received:

1. On Platinum Way, cars parked on the left-hand side going westward are blocking the vision of those cars coming out from the road on the left. It has been reported that close accidents have happened at this junction (close to the show home).

Response:

I have flagged this to BDW, and they are reviewing this.

2. A car parks on the corner of Wises Lane and Ashmead's Rise, this blocks sight lines for cars coming out of Wises Lane onto Wises Lane.

Response:

As an adopted road, BDW do not have control over the parking in this location. However, BDW are looking into this to see if there is anything they can do.

3. People have raised concerns about the roads through the new estate, with residents there finding the parking very awkward and blocking the sidelines. This has been raised as the roads are unadopted, and what actions can the developers take to rectify this situation.

Response:

I have flagged this to BDW, and they are reviewing this.

4. What is the current occupancy level of the development, as the junction with Wises Lane and the A2 is becoming impossible with long queues waiting to turn right onto the A2 and residents are asking when the junction improvements are going to be undertaken?

Response:

Condition 27 attached the Outline consent secures the installation of traffic lights at the A2/Wises Lane junction. However, it is for KCC Highways to decide whether they want these works to be undertaken or not. So far, KCC have not requested that these works be undertaken, and they have until the occupation of the 500th dwelling to do so.

I can also confirm that BDW/Redrow have reiterated to all contractors and deliveries that access to the site should not be taken via Wises Lane. They are also arranging for a sign to be placed at the top of Wises Lane that confirms no construction access via this route.

Cllr Brian Jemmett
