

WISES LANE MONITORING GROUP

15th October 2025

Today DHA responded to the questions raised by the Parish Council last month:

1. Construction traffic is parking on Cryalls Lane itself and across the gates into the Nature Reserve. Please can you request this ceases immediately and all vehicles park in the designated area.

This has been raised previously via the Wisers Lane email address. This was addressed as soon as BDW were made aware and it has been reiterated to all contractors that they are not park in this location and to only park in the staff parking area at the compound.

2. Contractors' and Coinford vehicles are still parking in the visitor bays along Platinum Way. Please request again this ceases immediately.

Contractors have been reminded not to park in these locations and to only park in the staff parking area at the compound.

3. The approach to Platinum Way from the village is still causing concern. In dark hours it is very misleading that you have to turn left as straight on is a footpath and grassy area. Can a left turn sign be implemented or something similar that is reflective, before someone mounts the kerb and does damage? This is very dangerous and it isn't the first time it's been raised.

BDW have reviewed this and will be installing a low level fence along this section.
