**WISES LANE MONITORING GROUP**

**REPORT**
**NOVEMBER 2026**

We still haven't received full figures from DHA regarding sold and occupied houses. However, they can confirm Phase 1a is fully occupied and 'over half' of Phase 2 is occupied.

The signing on Borden Lane has been confusing. They removed the gates and signs implying you could drive through. However, it is access only to the Redrow Show Homes. The signage has been changed.

Regarding lorries using the A2/Wises Lane route, DHA have informed BDW and replied as follows:-

…BDW and Redrow have raised this matter again with their suppliers and advised them that under no circumstances should deliveries be arriving to site via Wises Lane. They have reiterated that the delivery route that must be taken is via Chestnut Street.

Thank you for flagging the sign at the end of Wises Lane, I have advised the site team of this, who will have it removed. They are also arranging a sign to be place at the Wises Lane/A2 junction which clearly states no access to the development...

Please let me know if you see any lorries using this route, preferably with video.
